

Dust Extraction System for 115-125mm Diamond Blade

NEW NK-125MA

EN60745-1
EN60745-2-22 compliance

MULTI ADAPTOR SYSTEM PAT.P.

Enables to be fitted onto a wide range of 115-125mm angle grinders.

Handle port (M8/M10)

Grinder handle can be installed to the side of the cover that supports better control when cutting.

EASY BLADE CHANGE

The blade can be changed with EASY operation without detaching the angle grinder nor the dust shroud attachment.

Angle grinder or blade are **NOT** included.

SMART ROLLER SYSTEM

The 4 rollers cancel any frictions against the work surface, and the indicator at front roller guides the cut-line.
